CAGI Rotary Compressor Performance Verification Program

CAGI
Compressed Air & Gas Institute

Program administered by Intertek Testing Services
Overview

The Compressed Air and Gas Institute (CAGI) sponsors the Performance Verification Program for Rotary Compressors. The program provides a uniform and commercially practical means of verifying participants’ claimed ratings. Compliance with the provisions of the latest edition of ISO 1217, *Displacement Compressors-Acceptance Tests*, is mandatory for all participants.

Participation in the program is voluntary and is open to all manufacturers of rotary compressors from 5-200 HP. On a regular and random basis, the Program Administrator, Intertek Testing Services, selects and tests samples of equipment to verify that actual performance meets the manufacturer’s certified published performance ratings.

The ratings certified under this program are displayed in the standard CAGI datasheet format on datasheets published on participants’ websites and in the participants published literature. The verification seal, which appears on units and on participants’ published literature, is the participants’ public representation that the stated air flow capacities and efficiencies of compressors have been verified by an independent laboratory.

The flow and pressure ratings in this directory are provided along with model number *only* to help identify the specific model that was tested by the administrator. Consult a copy of the manufacturer’s data sheet for more detailed information. Datasheets can be located via the following links:

- Atlas Copco
- Boge
- Chicago Pneumatic
- Elgi
- FS Curtis
- Gardner Denver
- Hertz Kompressoren
- Ingersoll Rand
- Kaeser
- Kaishan
- Quincy
- Sullair
- Sullivan-Palatek
Participant List

The following manufacturers of rotary screw compressors are currently participating, or were participating, in the CAGI Performance Verification Program. Click on the manufacturer name to see the results of the tests that have been conducted for that manufacturer.

Atlas Copco

Boge

Chicago Pneumatic

Elgi

FS Curtis

Gardner Denver

Hertz Kompressoren

Ingersoll Rand
